MEDIA RELEASE

COTTONWOOD, Arizona (February 4, 2014) -- City of Cottonwood Wastewater Treatment Plant Tours.

Have you ever wondered where the water comes from, that appears when you turn on your faucet? What about what happens to the water you've used that leaves your home, whether it be from your laundry, toilet or shower?

The City of Cottonwood is offering bi-monthly tours of our utility facilities. These tours will be provided of either our water or wastewater facilities and will include an educational briefing at the beginning of each tour. After the briefing, the City of Cottonwood Mayor or a Council Member, along with a staff member will tour you through and around the facility.

These tours involve quite a bit of walking, climbing stairs and going through tight hallways so please dress comfortably. We can also change the route to accommodate wheelchairs, canes and walkers. We have no facilities to accommodate very young children, infants and strollers at this time.

The Cottonwood Wastewater Plant is located at: 1480 W Mingus Avenue, Cottonwood Arizona 86326.

Cottonwood Utilities will provide a tour of Well #8/9 which is located on South Willard Av, 200 feet north of Mesquite Drive , watch for signs.

The tours will be at 10am each day they are provided and the dates are as follows:

Wastewater: February 26th, April 30th, and June 25th

Water Well 8/9: March 26th, May 28th and July 30th

For more information about the tours, please contact Kyla Allen at Cottonwood City Hall phone number (928)634-5526 or email her at kallen@cottonwoodaz.gov
